Everything your library needs!

www.wearelibrarypeople.com

ALWAYS NEW, EXCITING AND JUST AS SURPRISING

Welcome to our new catalogue. We are pleased to present our exciting new products and a new graphic layout. We have redesigned the catalogue so that you can find furniture and matching accessories in the same place.

The catalogue interacts with our new website, where you will find further information, more smart tips and customer references. You can obviously also search on our entire product range on the website, from configured furniture that can be adapted to your library's wishes to furniture and accessories from the catalogue, and where everything can be delivered together.

If you are looking for information to design the interior of your library, you can go on a voyage of discovery among our references from all parts of the world. Contact our sales and interior design advisers!

In our new catalogue you will once again find many solutions developed for younger users. We hope you will want to discover ways of creating activity-promoting and learning environments using our solutions.

Environments that can encourage various practical, creative forms of expression with the focus on curiosity and, above all, a desire to read. All adapted on the basis of the library's own assets and resources so that you can install quickly and easily and get started time and time again.

This and much more besides!

Take an extra close look at some of our exciting new products!

How about the modular system Memphis? Invite visitors to take a walk past buildings with "display windows" filled with books, magazines, and much more besides! See pages 22-23.

Or what about Reading Hut? A multifunctional reading room for children with built-in shelves in the shape of African hut – surprising is the word! See page 69.

Add a new collection of display racks with a seasonal theme! Make sure you invite your visitors to special occasions. See page 20.

## AUTUMN COLLECTION

- More natural and sustainable materials

In Autumn we will update some of our bestselling book trolleys in new veneers. Choose between fresh-looking book trolleys in birch veneer or exclusive-looking book trolleys in oak veener.

Frogner Public Library, Norway

CREATING MAGIC IN THE LIBRARY

We can't pull a rabbit out of our hat, but we can get a rabbit to capture your visitors' attention in the most magical way.
We would love to tell you more about this.

What could be better than getting words of wisdom from someone who knows? Meet Ragnhild Malfang, Library Manager in Sørum Municipality, north of Lilestrøm, Norway.

"It was a matter of making space for a variety of ideas and set-ups, adapted to our new and more open library."

According to Ragnhild, you have to think about what the various activities and visitors require, so it must be both easy to work with and easy to modify. You also have to cater to those who want to feel taken care of and welcome – perhaps in a pleasurable way like this.

Grab the attention of your visitors

As decorative as they are useful. Create focus and relevance for the user. We're talking about inspiring elements that spark curiosity and a desire to read!

Stand for displaying material on both sides. High capacity.

Capacity	3-6 picture books
Size	W710 x D350 x H290 mm
Material	Clear acrylic, PMMA

E3429

E3429

Small touches, huge difference!

"With some small touches here and there, you can give your bookshelves a new look. Why not make use of the 'cavities' by putting a few display stands on the shelf? Naturally, we want the book to be the star, but even empty display stands can make the bookshelves stand out and become eye-catching.

Display stands can also be used in other places, like on counters, podiums, and window sills.

There are many uses that go beyond just being decorative. They can be used to display an open book about nature, make brochures visible and easy to reach, or encourage visitors to help keep things tidy in study areas.

Simple advice is good advice. It's not about making changes. It's more a matter of supplementing through small touches here and there."

Tanja Fändrich, Interior Designer

E3392 / E3393

E50326

E82390

DISPLAY SOLUTIONS IN ALL SHAPES AND SIZES

Storage & display boxes, presentation stands, brochure stands, and much, much more.

MAKE USE OF YOUR END PANELS

Good advice doesn't have to be expensive. If you don't have enough wall space, use the end panels of the shelving systems.
Here you will find a selection of smart solutions, such as holders for information, showing the way, or displaying books.

Self-adhesive magnetic frame

The self-adhesive magnetic frame can be placed on doors, windows, walls, end panels etc; and can be used for both portrait and landscape display. The magnetic front panels opens to allow easy replacement of inserts.

Material	Plastic, PVC with magnetic frame
Unit	2 pcs

DISPLAY & STORAGE FURNITURE

BECOME YOUR OWN URBAN PLANNER

Build inspiring "urban spaces" with buildings of different height, depths, and colours. Invite visitors on a walk around town along the building façades with inviting "display windows" full of books, magazines and much more! Ideal as focal points for all visitors.

The new multifunctional modules open up a wealth of possibilities. The modules are available in single- or double-sided versions and in three heights.

The lower heights help to create environments that are easy for both visitors and staff to navigate. Simple to rearrange and move around. User friendliness is in focus.

Memphis is made of wood from sustainable forestry

You can, for example, store books on some shelves and display them on others (adjacent, upper or lower shelves).

The shelves have a front edge, and can be positioned flat with the edge in the rear or as a sloping magazine shelf with the edge at the front.

The sectional design in combination with the many pre-drilled holes allows great variation in the positioning of the shelves and allows for creative solutions.

A collection of modular sections with extra everything for everyone

What just may be our most popular and versatile furniture for libraries of all time!
Now available in more variants in an improved design. A collection that makes your work easier and helps most visitors meet most needs.

Almost sounds too good to be true, doesn't it? Judge for yourself using the questions below:

Do I need …
- versatile and flexible solutions for front-facing display of books or other media?
- adjustable shelves with generous depth; room for more books one in front of the other (easy to fill up)?
- easy assembly and positioning (small number of parts and fittings)?
- solutions that make it easy to add to, take away from, or move around (without having to disassemble)?
- solutions that enable good monitoring in different environments (schools, libraries with extended opening hours, etc.)?
- solutions with a reliable, stable and safe design with respect to visitors?
- multifunctional solutions to create new features as needed?

If you answered yes to these questions, you should definitely take a look at these pages.

Plus Design

We use laminated birch plywood – here with visible edges.
All to create both a durable surface and a lasting construction.
Perfect for the most demanding library environments!

E4466

SHOWALOT MINI

Showalot Mini also offers an exciting solution.
Whether we're talking about front-facing display of picture books or study areas.

E3424

"We love using our new 'Maria' display furniture! It enables us to flexibly present media any time we want! Whether we use all three podiums as a unit, or just use one – 'Maria' gives the library a boost!"

Maria Pinsker, Mainburg Public Library in Germany

Why Maria?

"The Maria podiums are good for creating small and large exhibition islands in the library.
The simplistic shape fits well in most places and makes the books stand out.

Because of their small size and different heights, the podiums can be placed in the middle of the room, like a little landscape or be placed individually at the end of the shelvings. When the top plate is removed it also transforms into a browser, so you can easily change the exhibition.

It is also easy to do something extra - just add a bench, high tables or plants and it invites you to sit in between the displayed books."

Unni N. Iwanczuk, Interior Designer

Material	Plastic, PS

E50318

Memphis B/BB

IMPORTANT TO KNOW ABOUT PLYWOOD

Caring for you and your library is important to us at Eurobib Direct. We want to be able to offer you quality, affordable products you can rely on. We offer a wide range of products and several of them are made of materials such as birch plywood, with or without laminate.

Take a look at our book trolleys in the popular Plus series, the eye-catching Wildlife, Memphis or Cubic collection, etc. (furniture for learning environments) just to name a few.
Products that are manufactured not only using environmentally-approved materials, but also using responsible forestry.

As a customer, we want you to feel confident about what birch plywood is, its different grades, and what distinguishes it.

Bjarne Hjertvik, Marketing Manager

Here are some background facts:
- Birch plywood can be roughly divided into three grades: A, B and C (A is the highest grade).
- From a single birch log, approx. 75% becomes grade C veneer, 20% grade B, and the rest grade A.
- All of our current products are manufactured from grade BB/BB or B/BB.
- Grade BB/BB is preferably used for products with high pressure laminate (HPL) applied to the surface in order to provide the best possible surface for adhesion. The exemption to this is the Memphis modules, where we chose the higher B/BB grade.

For more information, please visit wearelibrarypeople.com/quality

WILDLIFE THEMES

A day at the circus
You can create an exciting environment with the aid of Jumbo children's group (table and stools) and Leopold, Lion & Lioness.

A day in the desert
You can also create a bit of a desert feel using the Lapsus clothes tree (E23541-43) shaped like the typical desert cactus. Cheeky is the name and it lets children aswell as 'bothersome' adults hang up their coats.
A day on the savannah
You can easily create a feel of the savannah using the spectacular Gradient Room Dividers (E23544-51), shaped like giant blades of grass - maybe elephant grass?. They help create peaceful zones for reading children and Leopold, Elna & Elof will feel right at home.

WILDLIFE COLLECTION

The rounded shapes of the figurative elements are designed with care for child safety. Rounded edges with soft edges help the youngest to have something to hold on to when browsing pictures books.

Elof

For picture books
Book browser for display and storage. Fitted with two compartments with dividers and three adjustable shelves.
Supplied with adjustable feet and rubber mats.
Suitable for children aged 4-8.

Capacity	270-310 picture books
Size	W780 x D1208 x H1000 mm

Size	W780 x D1528 x H1328 mm
Material	Laminated plywood
Design	Louise Hederström & Dan Jonsson for Eurobib Direct
Delivered	Flatpacked; needs assembly

E7654

Care instructions

Use furniture wax to treat the edges. This gives the edges both better protection against dirt and a nice finish. Apply a a thin layer of wax with a fabric cloth and polish the edges. Contact your local paint retailer for a suitable furniture wax.

FORMICA® HIGH PRESSURE LAMINATE

Excerpt from Formica Case Study, April 2018

Eurobib Direct's Wildlife collection is made of wood from sustainable forestry, and is an example of the company's ambition to develop and deliver environmentally-friendly and -approved products. The solid construction in the collection is specially designed for libraries and other learning environments. It incorporates smart features, imaginative design, and good material choices for care of both users and the environment.

Children are more vulnerable than adults when it comes to different factors in our immediate environment, due to both their physique and their movement patterns. Chemicals and environmental pollution are all around us in our day-to-day lives, with young children in many cases being more exposed than adults. There are several factors that contribute to this. For example, a child's high metabolism, respiratory rate and permeability through the skin cause them to

have a relatively high intake of environmental pollution. In addition, a child's organs are still developing, causing pollutants to remain in the body longer.

To ensure good indoor air quality, Formica's product range is GREENGUARD® Indoor Air Quality certified for interior building materials with low VOC emissions. The GREENGUARD Environmental Institute (GEI) has developed standards to define products and processes with low chemical emissions and particulate emissions for use indoors.
The standards establish certification procedures, including test methods, permissible emission levels, collection of product samples, the actual tests, as well as programme application processes, toxicity limits and approval. The Formica Group's European manufacturing plants and distribution centres are FSC-certified, and the company's products have also been awarded the Carbon Reduction Label. According to the Formica Group's

life cycle assessment (LCA), Formica's products have minimal impact on the environment. Formica's products are resource efficient, and are registered in the product and material selection systems BASTA, *SundaHus and Byggvarubedömningen*. Moreover, they are manufactured in accordance with the EN438 product classification system.

About Formica® high pressure laminate
Formica® high pressure laminate (HPL) is manufactured by compressing multiple layers of impregnated paper under high pressure and high temperature. This produces a strong, durable and hygienic surface material that can be used in a variety of environments – there is an endless number of possibilities for design and use. HPL can be used on horizontal and vertical surfaces. It can also be heated and bent. A perfect solution for furniture, wall panels, workbenches, doors, and much more.

PICTURE BOOK BROWSERS

Create colourful and inspiring zones for your youngest readers.

Take a look – castors & construction!

Remember that the castors on your trolley may need tightening after a certain period of use
(approx. 6 months). We also recommend that you check the castor fittings once a year and
tighten as necessary. Keep the tightening tool that is supplied with your book trolley handy.

FURNITURE FOR
LEARNING ENVIRONMENTS

LEARNING ENVIRONMENTS FOR YOUNG USERS

Simply put, it is a space for practical, creative expression with focus on curiosity.
Cubik is a versatile system for creating spaces designed with straight frames and wall elements.

E76228

Cubik

Focus on curiosity
Get started with Cubik. Consists of a framework and wall elements made of plywood and of black laminate with writing/magnet function.

Size	W1400 x D1400 x H1400 mm
Material	UV-lacquered birch plywood, laminate boards with writing/magnet function
Design	Bjarne Hjertvik for Eurobib Direct
Delivery	Flatpacked; needs assembly

E76228

Cubik Shelf Set

Display and store picture books
Smart shelves and compartments for young librarians. The shelves and compartments come in two different widths to fit the inside and outside of the rear wall element.

Size	Shelf inside: W578 x D66 mm Shelf outside: W674 x D66 mm Compartment inside: W578 x D184 x H335 mm Compartment outside: W674 x D184 x H335 mm
Material	UV-lacquered birch plywood
Unit	6 shelves / 2 compartments
Delivery	Flatpacked; needs assembly

E76237

E76237

Lewis

Driving fun for the littlest ones
Compact book trolley made of birch plywood with two fixed shelves with front edge lip for front display of picture books, for example.
The integrated handles are easy for both younger and older children (aged 3–7) to hold onto.

Capacity	50-55 picture books
Size	W470 x D438 x H438 mm
Material	UV-lacquered birch plywood
Castors	Ø50 mm
Delivery	Fully assembled

E3793	Set of Pens (4 pcs)

My Library Too
- the library kiosk

Cubik is shown here set up as a library kiosk – a place for inspiration, playing and learning.
Fun-filled learning for the littlest ones: understanding, interpreting and communicating books borrowed.
Imagine having the children help you increase book borrowing! Isn't that fabulous?

E76228 + E76237 + E76229

The writing/magnet boards let children communicate their personal experiences and impressions from the world of books: write, draw or display drawings and much more.

E76231

Cubik is made of wood from sustainable forestry

A MEETING PLACE FOR THE YOUNGEST

Create space for practical, creative expression with curiosity in focus. Cubik enables you to get started quickly and easily. In addition to activities to promote reading, they can create a space for theatre and other artistic activities.

My Library Too has been a source of great joy at Väster library in Lund, Sweden.

"The children play enthusiastically out in the library kiosk. They play library, bookshop and school. They have a lot of fun, and the kiosk is a natural gathering place for the youngest.

They push the little book trolley around and "clean up" the books as they go along (it just seems natural). It's not uncommon to see a parent crawl into the kiosk to sit there and read with their child."

Both the library staff and the children are really enjoying the library's new library kiosk!

Ida-Matilda Carlsson Öiulfstad,
Väster Library in Lund

My Art Gallery Too
- the artist's studio

Allow children to express themselves and be creative. The easel lets children create masterpieces on their own or with other children. Let children inspire children.

Garbo is made of wood from sustainable forestry

E76232 + E76233

E76234

My Theater Too
- children's theatre

The stage, the actor and the audience are ready. The play can begin. Standing on stage is a fun way to try and practise various roles, whether we are talking narration, song and music performance or plying in the form of characters. Let the children play and have an outlet for their imagination by practising using their senses and their entire body. All you need is 3.4 m² of space for the stage.

E76236

GET MORE OUT OF CUBIK

Cubik helps you create new spaces for the creative expression of the library's youngest visitors. Let the children try painting on an easel or acting on stage. Check out all the options here (of course, you can also use Cubik to display books that suit the respective activity).

Puzzle

Prizewinning furniture icon for children

Puzzle is just as much a range of furniture as a play tool designed for children and on their terms. The shape is just as simple as it is genius, where both the element and the construction form a table and stools.

Children come and go, look and search around, play individually or in a group or gather together to hear a story read aloud. Activities that demand as well as create space for them.

Size	Table: W900 x D900 x H460 mm Stool: Ø350 x H228 mm
Material	Veneered birch plywood
Design	Birgitte Borup and Carsten Becker for Eurobib Direct
Unit	1 table / 4 stools
Delivery	Flatpacked; needs assembly

E15139

PRIZEWINNING FURNITURE ICON

Puzzle has been part of a number of exhibitions internationally and has also won the prestigious Japanese G-mark Prize in the category Good Design Grand Prize and the Norwegian Design Prize Designers Saturday.

Puzzle and its puzzle-like qualities connected to the child's motoric development through play wins attention and has, among others, been purchased by Lego.

READING HUT

Reading hut gives children opportunities to live other worlds; pretend to be somewhere else, browse through books or just chill.

Reading Hut

Reading room for young library users

A multifunctional room in the shape of an African hut. The horizontal elements tie the structure together and provide ample space for picture books on three levels.

A space that offers privacy, free view (or insight) with integrated shelves to display or dispose books and much more. Everything accessible from both sides of the shelves.

In addition there are 3 compartments for display or storing. Equipped with floor protectors.

| Capacity	30 picture books per shelf
Size	Ø2400 x H1500 mm
Material	UV-lacquered birch plywood
Design	Bjarne Hjertvik for Eurobib Direct
Delivery	Flatpacked; needs assembly

ROOM IN A ROOM

Do visitors become more creative or focused when the interior design solutions are inspiring and different? Not necessarily. The optimal solution is created based on what you want to communicate and where each solution clearly says "Space for visitors on the visitors' own terms".

Cocoon

Multi-functional furniture...
The Cocoon series provides seating and storage solution for any library zone.
The modules can be used horizontally or vertically and combines in a variety of ways.

Size	Vertical: W970 x D540 x H2050 mm
	Horisontal: W2050 x D540 x H970 mm
Material	Melaminecoated particle board, felt
Design	Anthony Salaa for Schulz Speyer

Cocoon Lounge

Creates a 'room within a room'. Ideal zoning solution for kids, students and gamers alike. Graphics are additional.

Size	W2500 x D1800 x H2050 mm
Material	Melaminecoated particle board, felt
Design	Tanja Fähndrich for Schulz Speyer

COCOON LOUNGE AS CENTRE OF ATTENTION

The City Library in Werne, Germany recently put focus on young people as a target group. The result was a chill area called RePlay (Read and Play).

"Since the youth area is directly related to the adult area we wanted to create a peaceful coexistence. We have divided the two areas with existing groups of DVDs, CDs and learning aids. In addition we have equipped the areas with flexible seating

and 2 consoles. To separate them, we have made the Cocoon Lounge the center of RePlay. It is visually a real highlight for young and old.

In the Cocoon Lounge is an Xbox, which is very popular. Up to 4 young people can play at the same time. The closed character of the Cocoon Gaming Lounge takes away some of the noise, but since it is still open on two sides, one cannot expect

absolute quiet. As a rule, however, if necessary with a nice admonition on our part, the noise level is limited and young people and adults get on well with each other.

All in all, the Cocoon Gaming Lounge for the City Library of Werne was a worthwhile purchase".

*Marion Gloger,
City Library of Werne, Germany*

*WE
ARE*

THE FIRST ENCOUNTER...

The first encounter (or the first impression for that matter) can be crucial. Whether we're talking about a fully-staffed, reduce-staffed, or unstaffed library, your visitors should not only feel welcome but also be able to get their bearings quickly.

Where can they get personal assistance or how can they help themselves? Questions that your visitors should be able to have answered when they step into the entrance zone.
Planning and designing entrance zones with the help of various interior design solutions may be the answer. Here, we present some options for taking good care of your visitors – right from the first encounter.

Info Pod XL

Adjustable information desk
Info Pod with a more generous work surface.
Fitted with smart cable lead-throughs in the work-tops. Includes adjustable feet and castors.

Size	W1400 x D765 x H690-1170 mm
Material	Laminated plywood, powdercoated steel
Design	Lykke Jørgin & Camilla Larsen for Eurobib Direct
Delivered	Fully assembled

E4690	white/dark grey
E4691	light grey/dark grey

Looking for more colours or wood types?

Our Customer Service can guide you to current websites based on who supplies the laminate so you can choose a colour that suits your needs. For example, you might want an Info Pod in oak veneer. Prices may vary depending on the material, but the delivery time is usually about 6-8 working weeks from the date you place your order.

LET YOUR VISITORS GET A LITTLE CLOSER!

Help your visitors in a welcoming and dignified manner.
We can all improve accessibility (regardless of whether your visitors use a wheelchair or a rollator)!

Info Pod, recessed front

Think accessibility!
Ideal for both wheelchair users (low position)
and rollator users (high position). Equipped with a
support plate in the base to ensure stability
(adjustable feet and transport wheels not included).

Size	W1200 x D770 x H690-1170 mm
Material	Laminated plywood, powdercoated steel stand and steel support plate
Design	Lykke Jørgin & Camilla Larsen for Eurobib Direct
Delivered	Fully assembled

E4683	white/dark grey
E4684	light grey/dark grey

New!

*"Our new adjustable Info Pod
with recessed front is a great
help to our visitors as well as
us staff. It facilitates our work
and our interactions with all of
our visitors. The counter makes
it possible for visitors to get
closer with bulky bags, and
is also a help for visitors who
use a wheelchair or rollator.
It feels great to be able to
help increase accessibility
at the library."*

STEEL SHELVING

The 60/30 Classic Steel Shelving System is a standalone shelving system and is the culmination of years of experience and success. Its modular structure and width of bays ensures ideal room utilisation through relevant functions. The flexibility of the system paves the way for a rich variety of individual solutions.

60/30 Classic Steel Shelving comes as single-sided, doublesided, round and wall-mounted options; with end panels in different materials; shelves for various purposes; and a wide range of smart accessories which create unprecedented possibilities.

The 60/30 collection, in addition to the shelving system, consists of a number of additional products to give the interior design a uniform expression. Contact us for information about 60/30 book trolley and 60/30 Expo.

60/30 Classic Steel Shelving System

Dimensions (mm)
- Heights: 1220 / 1520 / 1820 / 2120
- Widths: 750 / 900 / 1000
- Depths: 225 / 250 / 300 / 400

Material
- 60 x 30 mm rectangular steel tube

End panels
- Wooden, perforated steel or glass
- Wooden slat end panels

Back panels
- Wooden or as pinboard with fabric

Shelves
- Horisontal or sloping
- Wooden or steel
- With or without back edge
- Top shelf with our without sign profile

Colours
- The steel parts can be powdercoated in the colour of your choice
- The wooden parts can be delivered in different wooden veneers or painted in the NCS colour of your choice

Functions
- Periodicals display
- Storage and/or display of books, periodicals and other media
- Lockers, workstations, seating
- Possibility for integration of audio-visual equipment

Accessories
- Castors, signage, book supports, displays, lighting, etc.
Nordic Eco Label

All steel parts in our range meet the criteria for Eco Label, Svanen. Sustainable, safe and environmentally friendly.

STEEL SHELVING

The Uniflex, Quadra and Rondea Steel shelving system offer a wide range of possibilities in your library!
The standalone shelving systems with different frame designs and numerous shelves and functions allow for individual
library design and are especially suited for use in high volume libraries as well as in public and school libraries.

Uniflex

Rondea

Quadra

Uniflex, Quadra and Rondea

Dimensions (mm)
- Heights: 1100 / 1500 / 1750 / 1860 / 2050 / 2250 / 2575
- Widths: 500 / 750 / 900 / 1000
- Depths: 250 / 300 / 350

Material
- Uniflex: 30 x 30 mm square steel tubing
- Quadra: 30 x 30 mm square steel tubing
- Rondea: Ø28 mm round steel tubing

End panels
- Uniflex: Wooden, perforated steel or safety/acrylic glass
- Quadra/Rondea: Perforated steel

Shelves
- Horisontal and corner
- Brackets for sloping shelves
- Wooden or steel
- With or without back edge
- With or without kick plate (only Uniflex)
- With steel or wooden top shelf (only Uniflex)

Colours and surfaces
- The steel parts can be powdercoated according to our general colour range. Other colours are available upon request
- The wooden parts can be delivered in our standard colour range of melamin or in veneer. Other surfaces, veneers and colours are available upon request

Functions
- Periodicals display
- Storage and/or display of books, periodicals and other media
- Cabinets, doors, work stations, etc

Accessories
- Castors, signage, book supports, displays, lighting, etc.

Certifications
Metal parts are lacquered according to DIN 50942 with a particularly resistant, environmentally friendly, stove-enamel powder coating. Most of the metal fittings are chrome-plated or galvanized and therefore have long-term corrosion protection. Wooden surfaces have an environmentally friendly lacquering or plastic coating.

WOODEN SHELVING

One is an affordable shelving system with a simple design but fully adapted to the exacting demands of the library.
One combines stability and durability with modern expression.

E76206 + E76207

One

Easy to assemble (fittings included)!
The shelf sections can be assembled using the metal cross on the back which allows sections to be added or removed without the need to dismantle the entire shelving unit. It is easy to re-position or remove shelves without affecting the other shelves.

The shelving system is supplied with a hanging book support for each shelf (not for the bottom shelf). Fittings for assembling two shelves/ sections to serve as a brochure shelf are included.

Material	Melaminecoated particle board with birch effect, powdercoated metal, acrylic back edge, book support in chrome metal
Other	Can support up to 80 kg per shelf
Delivered	Flatpacked; needs assembly

Accessories for One

E76215   Hanging book support, 5 pcs.

E3020	220 mm, glossy
E3033	260 mm, glossy
E3032	300 mm, glossy
E3034	360 mm, glossy

Scotch Book Tape

Versatile, durable
Self-adhesive, transparent tape. Strong and tear-resistant. For strengthening, protecting and repairing books, paperbacks, magazines etc.

Material	Plastic
Thickness	90 µm
Unit	Roll, 13.7 m

E3112	38 mm
E3113	50 mm

Plastic properties & environmental impact

Polyvinyl Chloride, PVC

Colourless vinyl chloride polymer. The plastic is usually mixed with free additives such as softeners, fillers and lubricants, as well as stabilizers.

In general, the plastic has good resistance to chemicals but also a low softening point.

Environmental impact
Not classified as a hazardous to health and believed to be physiological inert. However, hydrogen chloride is released during incineration.

Polypropen, PP

White to colourless plastic (without additives), similar to polyethylene but more rigid. High fatigue resistance, low density, good electrical properties, good resistance to chemicals and good mechanical properties.
However, can be attacked by strong acids and bases, aromatic and chlorinated hydrocarbons and methanol.

Environmental impact
The plastic is not classified as hazardous to health. No special purification devices required during incineration.

Good to know!

Best before date?

Of course plastic film doesn't come with a best before date. But the glue on self-adhesive film can age.
For optimal adhesion, we recommend that the product be used within two years. This applies to unused foil on the roll.

Glossy or matt?

Glossy plastic film strengthens the colours on a book cover and is often used to protect photographs. Matt film does not reflect light in the same way as gloss. Barcode labels protected by gloss film can be a little difficult to read.

Easy to reposition!

Are you a beginner or maybe nervous about making a mistake? Repositionable plastic film can be placed, removed and repositioned multiple times without tearing or sticking. After 24 hours, the glue will have stabilized and the film is then firmly adhered to the cover. Other plastic film we market as repositionable to a limited extent has a more instant adhesion and must be repositioned immediately.

¥€$!

BOOK FILM IS A GREAT WAY TO SAVE MONEY

It is the easiest solution for preserving and extending the life of popular books.
You not only prevent wear to books and save money, but you also make it possible to use the library's funding to buy new titles instead of replacing old ones.

We have practically everything you need to protect and preserve books.
Book film that can be used by pre-school teachers to repair picture books, and by larger organisations to deliver fully-prepared books to the library. Keep in mind that even fully-prepared books may need some care,

for example to reinforce and repair folds in the cover, repair tears, or reattach pages that have been ripped out (just to name a few). Help is close at hand. We can give you advice that will help you save money!

For advice see our BOOK CARE GUIDE on wearelibrarypeople.com

POCKETS & COVERS

Good advice doesn't have to be expensive or even particularly complicated!
Here you will find a selection of accessories for adding inserts to books or protecting books and labels.

Filmolux Card Pockets

Practical card pockets
Self-adhesive, transparent and triangular pockets. Available in three sizes.

Material	Plastic, PVC
Unit	S: 144 pcs
	M/L: 100 pcs

E660152	S: 75 x 75 mm
E2856	M: 100 x 100 mm
E2851	L: 140 x 140 mm

Book Pockets

Unfolded pocket, 500 pcs
Supplied on a roll for printing.

E2320	W90 x H60 mm

Book pocket, deep, 500 pcs
Pre-folded for gluing. Not self-adhesive.

E2371	W90 x H135 mm

Self-Adhesive Book Pocket, 100 pcs
Credit card size - for library cards, insert, etc.

E2322	W90 x H57 mm

Paperback Covers

Use over and over again
Offers quick, simple protection from wear & tear and dirt. As the covers are self-adhesive and also adjustable width-wise, they can be used over and over again.
The welded seams help prolong service life.

Material	Plastic, PVC
Thickness	180/140 µm
Unit	100 pcs

E3154	180 x 265 mm
E3156	198 x 310 mm
E3157	200 x 310 mm
E3160	202 x 310 mm
E3161	204 x 310 mm
E3155	300 x 500 mm

Label Protection

Self-adhesive, transparent, glossy plastic film; soft. Can be safely used on barcodes and other printed text. Manufactured in environmentally friendly, heat-resistant plastic.

Material	Plastic, PP
Thickness	55 µm
Unit	1000 pcs

E3096	35 x 25 mm
E3086	65 x 53 mm
E3099	75 x 35 mm
E3087	100 x 40 mm
E3090	113 x 48 mm

Binder Covers

Self-adhesive covers for paperbacks
Transparent, pre-cut binder covers in strong plastic; flexible back and stiffer cover. Choose the one that suits you best, remembering to allow for a few extra millimeters more than the size of the object you are covering.

Material	Plastic, PVC
Thickness	Front: 140 µm / back: 45 µm
Unit	AI, AII, BI, BII, Ci, CII:10 pcs
	EI,EII: 5 pcs

W270 x H186 mm, pocket books

E3051	AI, spine 1-21 mm
E3052	AII, spine 22-42 mm

W350 x H222 mm, standard books

E3055	CI, spine 1-21 mm
E3056	CII, spine 22-42 mm

W410 x H252 mm, magazines

E3053	DI, spine 1-21 mm
E3054	DII, spine 22-42 mm

W510 x H320 mm, larger books

E3057	EI, spine 1-21 mm
E3058	EII, spine 22-42 mm
